Hossein,

Thanks for the quick reply (as always). This effort has been in the works for some time and I wasn't aware of the proposal you sent this morning, but if this answers that particular mail, all the better.

Happy to discuss long term benefits of the scholarships at any point. I can elaborate on Martin's vision and motivation for these scholarships as well.

In the meantime, Lori can follow up with Jennifer to get the ball rolling. Thanks for connecting us.

Have a nice evening,
Duke

Duke,

thanks!! This is wonderful news.

Is this in response to the proposal I sent to Martin this AM? I have copied JENNIFER Shepard, our Sr. Dir. Advancement who drafted the above proposal for us. These scholarships are transformative, and I greatly appreciate the fine citizenship of Navatek. I would like to follow up with you later about specific steps enabled by these scholarships.

Thank you again for this!
Hossein

Hossein and Bill,

Great seeing you in Columbia last week. Thanks again for inviting Josh, Santiago and I to join you. I think that was an excellent discussion that will set us up nicely for FY21.

I am reaching out to let you know that Navatek is interested in providing funding for scholarships for women students studying in STEM fields, particularly science and engineering, at UofSC. We intend to make these donations by way of a charitable foundation set up for this purpose.

One of my colleagues, Lori Bofman, is in charge of defining the program and rolling out these donations as soon as possible in 2020. Would one of you kindly provide Lori with the appropriate point of contact to guide her through the process of awarding the funds?

Best regards,
Duke
